

# Changes Approved April 2018

This document lists updates to the original *Guidance for Transcription Using the Nemeth Code within UEB Contexts* posted in June 2016. Individuals who downloaded the file prior to its most current update should note the information about what has changed.

## **Page 1, Introductory Paragraph**

Listing of Indicators is adjusted  
Information on listing the indicators on the Special Symbols page.

## **Page 1, Basic Guidance on When to Switch**

1. Additional definition of fractions

## **Page 2, Basic Guidance on When to Switch**

- 3a. Further definition of unmodified letters/numbers

## **Page 3, Basic Guidance on When to Switch**

- 3b. (NEW) Digital time (0:00) is transcribed in UEB unless the time is involved in computation (two examples).

Former **3b** is renumbered as **3c**.

4. Additional text defining the single-word switch indicator. Added the provision that UEB typeform indicators may be used on words that are preceded by the single-word switch indicator.
5. (NEW) Creation of icons for use in UEB and Nemeth.

Former **5.** is renumbered as **6**.

## **Page 6, Additional Guidelines**

1. Correction to the title of the Nemeth Code
2. Simplified the guidelines for transcribing symbols.

## **Page 8, Additional Guidelines**

5. "Measurement units" changed to "Abbreviated measurement units"
6. (NEW) Transcription of two or more letters (not abbreviations) identifying geometric shapes or figures

Remaining items are renumbered.

## **Page 14, Additional Guidelines**

16. Established a category heading for the listing of Number Line symbols on the Special Symbols page.

## **Page 20, Formatting**

16. (NEW) Transcribing systems of equations with comments to the right of the arrangement.
